

OUR POWER PACKED DIVISIONS

Aquarium of the Bay is passionate about providing fun and unforgettable encounters with our natural world in ways that ignite wonder and conservation.

The **Sea Lion Center** offers free interpretive programs to learn all about California sea lions and their history at PIER 39.

The Bay Model Alliance works to build a comprehensive learning center for the Bay, on the Bay.

The EcoCenter at Heron's Head Park is an incredible space for environmental education, public outreach, and for connecting people with the beauty of San Francisco's wild landscapes.

The Bay Institute is the leader in protecting and restoring the entire watershed which drains into San Francisco Bay.

All divisions of bay.org are 501(c)(3) nonprofits. Ticket sales, event sales, and donations support our conservation mission and provide 20,000 Bay Area children with free science education annually.

bay.org

bay.org

Our purpose at bay.org for more than 30 years now has been to protect, restore and inspire conservation of San Francisco Bay and its watershed, from the Sierra to the sea.

Do good, while doing well.

When you host your events at a bay.org location, not only are you getting an incredible event space, you are helping to conserve and protect San Francisco Bay and its watershed. Your event funds help to support our efforts including our education initiative which provides young students from K-12 with FREE education programs.

Explore below the San Francisco Bay and meet your native aquatic animals when you host your next event at Aquarium of the Bay. Located at PIER 39, this unique event space brings you face to fin with the smallest and largest of our watershed creatures.

The world famous sea lions made PIER 39 their home in the autumn of 1989, and since then millions of visitors see them annually. Our Sea Lion Center, nestled directly above the sea lions, is the perfect location to host your event for a genuine San Francisco experience.

The coolest thing since sliced bread, the Bay Model is a working hydraulic scale of the San Francisco Bay and its watershed from the Sierra to the sea. Make an impact by hosting your event in this space while learning of the impacts on our water system.

The EcoCenter at Heron's Head Park in Bayview, is one of the only off-grid locations in San Francisco open to the public. With sweeping views of the Bay and delightful native landscape, this location is an outstanding event space.
